Since its establishment in 1988, Home Resource Ind. Co., Ltd. has been dedicated to production and development of lighting products for three decades.

We would like to take this opportunity to express our sincere appreciation for your fully supports and concerns over the past 33 years.

With years of efforts on upgrading production capability and capacity, Home Resource has grown into a consummate manufacturer of lightings on OEM and ODM basis. Globally reputed R&D talent has also helped Home Resource to enhance popularity and recognition of its own-brand products in recent years.

In addition to existing branches, Home Resource has opened a constructed plant of 26,000 square meters in China(Zhongshan City, Guangdong Province), which employs advanced production equipment to assure even shorter delivery and more considerate services for clients than before.

We strive for success not only in having determination and courage, but also developing innovative products and marketing intelligence base on our core competence: innovation,

David Chen
Vice President

efficiency, integrity and passion. Home Resource will definitely get hold of past success to carry on growing continuously in the lighting territory now and then. Let's witness the brand new, prosperous Home Resource to achieve an even higher peak of success in the coming future.

Home Resource was established in 1988. Since then, the company has developed into one of the most professional lighting manufactures in Taiwan and Mainland China.

Home Resource would like to express our sincere thanks to all customers, every one of our employees. It is their continuing support and hard work that has allowed Home Resource to grow as rapidly as they have been able to. HR will continue to make even greater efforts in the future.

We strive to attain a position of long-term, sustainable pre-eminence in the lighting field "lighting up" both our customers and ourselves.

We look forward to working with you all continuously to create a brilliant future.
